INTRODUCTION

America’s Service Commission’s 2022 Training and Technical Assistance (TTA) Directory is a resource for ASC members to learn about trainers and consultants who are both peer-recommended and have demonstrated support for the state service commission network.

These consultants have demonstrated a commitment to state service commissions and their programs. Inclusion in the 2022 Training and Technical Assistance Directory requires membership in America’s Service Commissions at the Individual Level and completion of an application including references.

When searching for a trainer or consultant, use the Training and Technical Assistance Directory to learn about consultants who care about the strength and stability of the state service commission network and have references recommending them in specific areas of expertise within the state service commission, national service, and volunteer field.

Looking for a trainer or consultant for a specific audience or for in-person training in a certain geographic area? View the charts on pages 5-9. Looking for a specific topic? Use Ctrl +F to search the document using a keyword or look for the “Made in AmeriCorps” symbol to view trainers and consultants who are AmeriCorps Alums!

Should you have any questions about the 2022 Training and Technical Assistance Directory or need assistance finding a qualified trainer or consultant, please contact Elisa Gleeson, Manager, Membership and Training at egleeson@statecommissions.org.
Audience for Training & Technical Assistance Offerings

Trainers and consultants in the TTA Directory are available to provide training and technical assistance to a variety of national service audiences. Use the chart below to identify a trainer/consultant that is the best fit for your audience.
